POLITICAL COMMENTARY BY ADEN NEWS AGENCY.

ADEN, JULY 22, ANA.

Social Masses of our Yemani People and their national and Democratic Forces viz-a-viz women, men, youth and elderlies together with all good-loving Progressive forces, are following with extreme concern the continuing Yemani Summit Meetings in Sanaa, the Historic Capital of the Unity State. Also extreme attention is being paid to this great historic meeting which is being held in the shade of the enormous celebrations of Yemani, their national and democratic forces with the 25th anniversary of 26th September Glorious Revolution in the northern part of the homeland and the 20th Anniversary of National Independence in the South.

This important historic meeting comes in the shade of intricate and more sensitive Arab and International situations at time, reactionary forces and international imperialism led by the United States of America, are striving day-to-day to make worse the International situation in general and the situation in the Arab Gulf Region, in particular by the deployment of their huge military fleets in this sensitive region on the justification of the Iraqi/Iranian war, thus attempting to impose its economic and military domination and ignoring the sensitive situation that might culminate to serious unforeseeable consequences to peace in the Region and the world all over.

The Yemani-Summit meeting occupies particularly today a natural historic importance in the shade of the forementioned situations not only that but its historic importance as well lies in the fact that it is the first historic summit to be held after the rightist conspiracy of 13th January, led by Conspirator, Ali Nasser Mohd and his clique, and which violated all national and human ideals and values which were replaced by treason, deceit and holocaust massacres, and which represented values strange to the genuine morals and traditions of Yemani People.

Contd.,

Our Yemeni People, despite their fabricated division inflicted upon them by the two British and Turkish Empires within the end of the 19th Century, yet they have been all the time wilfully a United People within the stretch of old and modern history. Their national and democratic forces have been and are still concentrating in the strength that political and social circumstance of both Parts of Yemen, integrally were linked together dialectically, and that successes and failures in respect of anyone part affect positively or negatively the whole Yemen. Our Yemeni People who have launched a unified struggle for the defence of 26th September, 1962 and against British Colonialism in the south, will continue to launch the struggle in all parts of Yemeni Homeland, for the defence of both Revolutions and for the sake of unity.

Today, our Yemeni People in the North and South, are perfectly confident of the conclusions of the sought unity, about which Brother/Ali Salem AlDeedh said in the opening sitting of discussions said that it can merge and emanate by expanding the range of unity achievements, and linking them with the socio-economic progress of our people, because the actual value of any work towards the unity, lies in its transformation into an effective force in the socio-economic and living life of the People. Opposite to that, there is no value for any work isolated from the life of the People and their contribution in their creation and protection, whatever bright this work may be. Also, this will not come out except by the investment of joint potentials of both leaderships in the two parts, their effective forces and expansion of such in the life of the People and the society, topped by the potentials linked with strategic matters upon which the success of both leadership depends for the build-up of a united prosperous Yemen, in which poverty, backwardness, and division do not exist.

-9-

Our Yemeni People together with good-loving forces in Aden and International Arenas, trust absolutely that Saana Historic Meeting, will come out with positive practical conclusions, more scientific and actual, devoid of sentiments, and as hinted by Brother Ali Abdulla Salch in the opening sitting of discussions. On the course of the practical steps of unity, without bids or information grumbling noise, on the course of reunification of unity, on peaceful and democratic bases, hostile attitudes and foreign conspiracies will be wrecked on the rock of unity of opinion of both leaderships and all conspiracies of enemies will be wrecked on the rock of our peoples will. This is the only cause which makes our people in the North and South, fully determined to realise Yemen unity- the hope and dream of the one Yemeni People towards their social progress and prosperity of its ancient civilisation.

OUR COUNTRY REAFFIRMS ITS APPEAL FOR THE NECESSITY OF STOPPING
THE EXISTING WAR BETWEEN IRAQ AND IRAN.

ADEN, JULY 22, ANA.

Comrade/Leader Abubaker AL-Attas/Politburo Member/
Chairman of the Presidium of the Peoples' Supreme Council/reaffirmed
attitude of our Country, calling for the necessity of stopping the
destructive existing war between Iraq and Iran and for International
cooperation to guarantee freedom of international navigation in Gulf
waters and respect of international laws in this respect.

In his reply to a question by Novosti News Agency,
Correspondent, concerning evaluation of Democratic Yemen with regards
to American intervention in the Iraqi/Iranian dispute and the latest
Soviet proposals, he expressed our country's full support to the
Soviet Constructive proposals which call before and above everything
for the withdrawal of all foreign war fleets from the Gulf area,
release of acute tension, guarantee of freedom of international
navigation in its waters, the stoppage of War between Iraq and Iran
and its transformation into a peaceful political reconciliation. He
described them as an Appeal representing a true call which preserves
for Peoples of the Region their right of sovereignty and which
preserves as well for all freedom of international navigation and
emerges from the principled firm attitude of the Soviet Union towards
the situation in the Gulf.

Comradé/AL-Attas pointed out that Democratic Yemen
has warned earlier that reactions of Iraqi/Iranian War presents
justifications for the presence of imperialist American Military fleets
and of their allies in Gulf Waters. He confirmed that events of the
past, have proved that U.S.A. does not care of interests of the Regions
peoples, including Iraq and Iran, is concerned only on what it alleges
as the interest of U.S.A. alone which is represented in enhancing its
domination through its military existence, at the expense of the sover-

signity, and indepeninnoc of Peoples of the Region.

He clarified that this has been quite vivid through the consignment of American Weapons or the so-called Iran/Gate Scandal and also its ill justification of the accidental strike on the American military Brigade (Star) besides enhancing its military presence curtailing to intensification of tension and dragging the Region on the verge of a catastrophe.
